INDEPENDENT AUDITOR'S REPORT

To the Board of Education Arvon Township School District Skanee, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Arvon Township School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Arvon Township School District as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension requirements on pages 6 through 11 and 31 through 33 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The additional information on pages 35 through 37 are presented for purposes of additional analysis and is not a required part of the basic financial statements.

The additional information on pages 35 to 37 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated October 25, 2016 on our consideration of the Arvon Township School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Arvon Township School District's internal control over financial reporting and compliance.

Rukkila, Negro and Associates, Certified Public Accountants, PC

October 25, 2016

This section of Arvon Township School District's annual financial report presents management's discussion and analysis of the District's financial performance during the year ended June 30, 2016. Please read it in conjunction with the District's financial statements, which immediately follows this section.

Overview of the Financial Statements

The annual report consists of a series of financial statements including other requirements as follows:

- Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.
- The Government-wide Financial Statements consists of a Statement of Net Position and a Statement of Activities. These provide information about the activities of the District as a whole and represent an overall view of the District's finances.

Statement of Net Position and the Statement of Activities

These statements provide information that help determine how the District is doing financially as a result of the year's activities. The statements are shown using a full accrual basis.

The District's net position and the changes in the net position during the year are reported by these two statements. Increases or decreases in the District's net position is one way to determine if the financial position of the District is improving or deteriorating. However, non-financial factors will need to be considered as well to determine the overall financial position of the District.

• Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. These statements also report the District's operations in more detail than the Government-wide Financial Statements by providing information about the most significant funds.

The fund level financial statements are reported on a modified accrual basis. Only those assets that are "measurable" and "currently available" are reported. Liabilities are recognized to the extent that they are normally expected to be paid with current financial resources.

In the fund financial statements, purchased capital assets are reported as expenditures in the year of acquisition. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long term obligations are recorded as expenditures. Future year's debt obligations are not recorded.

The fund statements are formatted to comply with the legal requirements of the Michigan Department of Education's "Accounting Manual." In the State of Michigan, the District's major instructional support activities are reported in the General Fund. Additional activities are reported in their relevant funds including the School Service Fund.

<u>Major Funds</u>: Under GASB Statement 34, the audit focus has shifted from type of governmental fund to major funds. Major funds are the largest funds in terms of assets, liabilities, revenues or expenses/expenditures. This allows the reader to see more detailed activity of the major funds. For the District, the General Fund meets this requirement.

Non-major Funds: In the basic financial statements, non-major funds are consolidated into one column. These are smaller funds. Detailed information about non-major funds can be found after the notes to the financial statements.

Overview of the Financial Statements (Continued)

- Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.
- Required supplementary information, other than Management's Discussion and Analysis, provides information about the required budgetary comparison information on the General Fund.

Significant Transactions and Changes in Individual Funds

The overall financial position of the individual Governmental funds of the District did not change significantly from the previous year. A comparison of revenues/transfers, expenditures/transfers and fund balances is as follows:

	 2016	 2015	Change		
General Fund					
Revenues/Transfers	\$ 368,185	\$ 361,356	\$	6,829	
Expenditures/Transfers	\$ 382,036	\$ 363,905	\$	18,131	
Fund Balance	\$ 697,754	\$ 711,605	\$	(13,851)	
School Service Fund					
Revenues/Transfers	\$ 8,075	\$ 5,509	\$	2,566	
Expenditures/Transfers	\$ 7,964	\$ 5,441	\$	2,523	
Fund Balance	\$ 277	\$ 166	\$	111	

General Fund: Revenue changes of \$6,829, are due to an increases in property taxes, state and federal sources.

Expenditures increased by \$18,131 due to an increase in teaching supplies and teacher salary expenses.

School Service Fund: Revenue changes were due to a transfer from General Fund.

General Fund Budgetary Highlights

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the annual budget prior to the start of the fiscal year on July 1. Any amendments to the original budget must be approved by the Board prior to the close of the fiscal year on June 30.

For the fiscal year ended June 30, 2016, the original budget was adopted on June 25, 2015. Since the original budget is adopted two months before school is in session, the district often has many unknowns that could change the financial outlook for the school year. In addition, there are often a number of unforeseen events that occur throughout the year that impact the budget and/or cause budget variances. Therefore, the District amended its budget during the fiscal year.

	Budgeted Amounts								
		Original	Final			Actual		iance Final o Actual	% Variance
Revenues	\$	364,232	\$	368,153	\$	368,185	\$	32	- %
Expenditures									
Instruction	\$	201,729	\$	204,548	\$	206,109	\$	(1,561)	(0.8)%
Supporting services		155,145		168,631		167,622		1,009	0.6 %
Purchased services		295		550		503		47	8.5 %
Total expenditures	\$	357,169	\$	373,729	\$	374,234	\$	(505)	(0.1)%
Other financing sources							-		
(uses)	\$	(5,875)	\$	(7,802)	\$	(7,802)	\$		- %

Revenues increased by \$3,921 from the original to final budget due to the addition of Title 1 revenues.

Analysis of Financial Position

During the fiscal year ended June 30, 2016, the District's net capital assets decreased by \$3,436 due to a combination of \$15,707 in depreciation and \$12,271 in improvements of the building from replacing the exterior door and windows and repairing steps and the basement. Details of the District's capital assets can be found on page 24.

Known Facts, Decisions, or Conditions Having Significant Affect on Future Operations

Arvon Township School District receives very little state aid and therefore does not operate dependent upon the state foundation allowance. The District levies 10 mills of local property taxes out of the 17.9334 mills of non-homestead property taxes allowed. In 2015-2016, the amount levied for the District was \$304,548.

Arvon Township School District received \$46,358 in federal grants awarded on an annual basis. These grants include Title I, Title II, and REAP.

The following graph depicts that student enrollment increased by 1 student, using the State Aid Membership Count.

Year	Student Total	Change
2011-12	8	1
2012-13	8	-
2013-14	8	-
2014-15	7	(1)
2015-16	8	1

Known Facts, Decisions, or Conditions Having Significant Affect on Future Operations (Continued)

State revenues received by Michigan school districts are approved annually in a State Aid Act. The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-homestead property taxes which may be levied at a rate of up to 17.9334 mills. Based on the District's non-homestead tax value and the student membership, the district is out of formula.

Contacting the District's Financial Management

This financial report is designed to provide our citizens and taxpayers with a general overview of the District's finances. If you have questions about this report or need additional information, contact the Arvon Township School District.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Arvon Township School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below

REPORTING ENTITY

Arvon Township School District (the "District") is governed by the Arvon Township School Board of Education (the "Board"), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local and federal government sources and must comply with all the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by the accounting principles generally accepted in the United States of America. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters. In addition, the District's reporting entity does not contain any component units as defined in Governmental Accounting Standards Board Statement Numbers 14 and 39.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other unrestricted items are not included as program revenues and are reported as general revenues.

In the government-wide statement of net position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term receivables as well as long-term debt and obligations. The District's net position are reported in three parts – net investment in capital assets, restricted, and unrestricted net position.

The District first utilizes restricted resources to finance qualifying activities.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues and other revenues). The statement of activities reduces gross expenses by related program revenues and operating grants. Program revenue must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The District does allocate indirect costs.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental Funds – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Property taxes, intergovernmental grants, and interest income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government unit.

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting.

The District reports the General Fund and Food Service Fund as major governmental funds. The General Fund is the general operating fund and accordingly, it is used to account for all financial resources except those required to be accounted for in another fund. The Food Service Fund is the food service operating fund and accounts for financial resources of the food service fund.

<u>Fiduciary Funds</u> – The Trust and Agency Fund is used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. This fund is used to account for assets that the District holds for others in an agency capacity (primary student activities). Fiduciary funds are not included in the government-wide statements.

<u>Accrual Method</u> - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

Modified Accrual Method – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Property taxes, federal aid, and interest associated with the current fiscal period are all considered to susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>State Revenue</u> - The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2016, the foundation allowance was based on pupil membership counts taken in February and October.

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-homestead property taxes which may be levied at a rate of up to 17.9334 mills. Based on the District's non-homestead tax value and the student membership, the district is out of formula.

Foundation			\$	8,169.00
Less Local Support:				
Assumed Local Revenue	\$	548,248.00		
Divided by General Education k-12 membership		8.50	_	
Calculated Local Support	•			(64,499.76)
Foundation Grant Allowance Per Pupil			\$	(56,330.76)

Other Accounting Policies

<u>Cash and Cash Equivalents</u> – Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Pooled investment income is generally allocated to each fund using a weighted average balance for the principal.

<u>Deposits</u> - Cash and equivalents include amounts in demand deposits and certificates of deposit.

<u>Property Taxes</u> – Property taxes levied by the District are collected by Arvon Township and periodically remitted to the District. The taxes are levied as of December 1 and are due upon receipt of the billing by the taxpayer and become a lien on the first day of the levy year. The actual due date is February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

For the year ended June 30, 2016, the District levied 10 mills of non-homestead assessed value for General Fund.

<u>Receivables and Payables</u> - Activity between funds are reported as "due to/from other funds." All receivables, including property taxes receivable, are shown net of allowance for uncollectibles.

<u>Inventory</u> - The District utilizes the purchase method of recording inventories of materials and supplies. Under the purchase method, inventories are recorded as expenditures when they are purchased.

<u>Capital Assets</u> – Capital assets, which include land, buildings, equipment, site improvements, and vehicles are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset lives are not capitalized.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and additions 20-50 years
Buses and other vehicles 5-10 years
Furniture and other equipment 5-10 years

<u>Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position</u> - Deferred outflows are reported in a separate section following assets, and deferred inflows are reported in a separate section following liabilities. The statement of net position then arrives at net position which includes the net effects of assets, deferred outflows of resources, liabilities, and deferred inflows of resources.

<u>Pension</u> - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public Employees Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Fund Balance</u> - Governmental funds report *nonspendable fund balance* for amounts that cannot be spent because they are either a.) Not in spendable form, or b.) Legally or contractually require to be maintained intact. *Restricted fund balance* is reported when externally imposed constraints are placed on the use of the resources by grantors, contributors, laws or regulations of other governments. *Committed fund balance*, if any, is reported from amounts that can be used for specific purposes pursuant to constraints imposed by formal action by the government's highest level of decision making authority, the Board of Education. A formal resolution of the Board of Education is required to establish, modify or rescind a fund balance commitment. The District reports *assigned fund balance* for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. *Unassigned fund balance* is the residual classification for the general fund.

When the District incurs an expenditure for purposes for which various fund balance classifications can be used, it is the District's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned balance.

<u>Estimates</u> - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Accrued Benefits - The liabilities for accrued benefits reported in the district-wide statements in the amount of \$7,799 consisted of sick leave. Principal/Teachers with a minimum of 5 years of service in the District are entitled to 13 sick days per year, and if not used, can accumulate up to a maximum of 180 days. Teachers with a minimum of 5 years of service in the District are entitled to 10 sick days per year, and if not used, can accumulate up to a maximum of 180 days. Payment of sick leave, capped at 50% of unused days, shall be paid upon retirement or layoff.

NOTE B - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. The Business Manager submits to the School Board a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplementary information.
- 2. A public hearing is held to obtain taxpayer comments.
- 3. Prior to July 1, the budget is legally adopted by School Board resolution pursuant to the Uniform Budgeting and Accounting Act (P.A. 621 of 1978) enacted at a regular meeting by School Board approval. The Act provides that a local unit shall not incur expenditures in excess of the amount appropriated.
- 4. During the year the budget is monitored, and amendments to the budget resolution are made when deemed necessary.
- 5. Budget appropriations lapse at the end of the fiscal year.

In the body of the financial statements, the District's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. Violations, if any, for the general fund are noted in the required supplementary information section.

NOTE C - DEPOSITS AND INVESTMENTS

At year-end, the District's deposits were reported in the basic financial statements in the following categories:

	Go	Governmental				tal Primary
		Funds		ary Funds	G	overnment
Cash and investments	\$	709,466	\$	748	\$	710,214

Deposit Risk

<u>Credit Risk</u> – State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investments pools as identified in the list of authorized investments below. The District's investment policy does not have specific limits in excess of state law on investment credit risk. The District does not have any investments.

<u>Custodial Credit Risk - Deposits</u> – In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. State law does not require and the District does not have a policy for deposit custodial credit risk. As of June 30, 2016, the District's bank balance was 100% insured.

NOTE D - CAPITAL ASSETS

Capital Asset activity of the District's governmental activities was as follows:

	Balance July 01, 2015		Additions		Deletions		Balance June 30, 2016	
Capital assets, not being depreciated	¢.	1	ф		Ф		Ф	
Land	\$	1	\$		\$		3	I
Capital assets, being depreciated Buildings and additions Improvements other than building Equipment and furniture Subtotal		101,476 193,817 55,363 350,656	\$	12,271 - 12,271	\$ \$	- - - -		113,747 193,817 55,363 362,927
Accumulated depreciation Building and additions Improvements other than building Equipment and furniture Subtotal		29,525 73,420 38,970 141,915	\$ <u>\$</u>	3,796 8,380 3,531 15,707	\$ \$ \$	- - - -		33,321 81,800 42,501 157,622
Net capital assets being depreciated		208,741						205,305
Net capital assets	\$	208,742					\$	205,306

Depreciation expense was charged to activities of the District as follows:

Governmental activities	
Instruction	\$ 10,920
Operations	 4,787
Total governmental	\$ 15,707

NOTE E - INTER-FUND TRANSFERS

General Fund made an inter-fund transfer to the School Food Service Fund in the amount of \$7,802 during the fiscal year ending June 30, 2016.

NOTE F - RECEIVABLES

Receivables at June 30, 2016 that are expected to be collected within one year are \$9,582 in the general fund.

NOTE G - PAYABLES

Accounts payable and accrued liabilities as of June 30, 2016, for the District are as follows:

			Food	Service	
Payables	Gei	neral Fund	F	und	 Total
Accounts payable	\$	7,531	\$	-	\$ 7,531
Compensated absences		7,799		-	7,799
Accrued expenditures		3,354		-	3,354
Salaries payable		10,132		_	 10,132
Total payables	\$	28,816	\$	-	\$ 28,816

NOTE H -EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PLAN

Plan Description

The Michigan Public School Employees' Retirement System (MPSERS/System) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System is administered by the Office of Retirement Services within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available at www.michigan.gov/mpsers-cafr.

Benefits Provided – Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit pension plan. Depending on the plan option selected member retirement benefits for are determined by final average compensation, years of service, and a pension factor ranging from 1.25 percent to 1.50 percent. Defined benefit members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to defined benefit plan members.

A defined benefit member or pension plus plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

NOTE I - MPSERS CONTRIBUTIONS AND FUNDING STATUS

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2015 valuation will be amortized over a 21 year period for the 2015 fiscal year. The schedule below summarizes pension contribution rates in effect for fiscal year 2015.

Pension Contribution Rates				
Benefit Structure	<u>Member</u>	Employer		
Basic	0.0 - 4.0%	22.52 - 23.07%		
Member Investment Plan	3.0 - 7.0%	22.52 - 23.07%		
Pension Plus	3.0 - 6.4%	21.99%		
Defined Contribution	0.0%	17.72 - 18.76%		

Required contributions to the pension plan from Arvon Township School District were \$23,666 for the year ended September 30, 2015.

NOTE J - NET PENSION LIABILITY

Proportionate Share of Arvon Township School District's Net Pension Liability

At June 30, 2016, the Arvon Township School District reported a liability of \$299,641 for its proportionate share of the MPSERS net pension liability. The net pension liability was measured as of September 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 30, 2014. The District's proportionate share of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the system during the measurement period by the percent of pension contributions required from all applicable employers during the measurement period. At September 30, 2015, the District's proportion was .0122678 percent, which was a decrease of .01098 percent from its proportion measured as of September 30, 2014.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2015, are summarized in the following table:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return*
Domestic Equity Pools	28.0 %	5.9%
% Alternative Investment Pools	18.0 %	9.2%
International Equity	16.0 %	7.2%
Fixed Income Pools	10.5 %	.9%
Real Estate and Infrastructure Pools	10.0 %	4.3%
Absolute Return Pools	15.5 %	6.0%
Short Term Investment Pools	2.0 %	0.0%
Total	100.0 %	

^{*} Long term rate of return does not include 2.1% inflation

Discount Rate

A discount rate of 8.0% was used to measure the total pension liability (7.0% for the Pension Plus plan, a hybrid plan provided through non-university employers only). This discount rate was based on the long term expected rate of return on pension plan investments of 8.0% (7.0% for the Pension Plus plan). The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE J - NET PENSION LIABILITY (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability, calculated using a discount rate of 8.0% (7.0% for the Pension Plus Plan), as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher:

	1% Lower	D	iscount Rate	1% Higher
	 (7.0%)		(8.0%)	 (9.0%)
District's proportionate share of the net pension liability	\$ 386,315	\$	299,641	\$ 226,572

Actuarial Valuations and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Summary of Actuarial Assumptions

Actu	narial Assumptions
Valuation Date:	September 30, 2014
Actuarial Cost Method:	Entry Age, Normal
Wage Inflation Rate:	3.5%
Investment Rate of Return:	
-MIP and Basic Plans (Non-Hybrid)	8.0%
-Pension Plus Plan (Hybrid)	7.0%
Projected Salary Increases:	3.5 - 12.3%, including wage inflation at 3.5%
Cost-of-Living Pension Adjustments:	3% Annual Non-Compounded for MIP members

Mortality: RP-2000 Male and Female Combined Healthy Life Mortality Tables for mortality improvements to 2025 using projection scale BB. This assumption was first used for the September 30, 2014 valuation for the System. For retirees 100% of the table rates were used. For active members, 80% of the table rates were used for males and 70% of the table rates were used for females.

Notes:

- Assumption changes as a result of an experience study for the periods 2007 through 2012 have been adopted by the System for
 use in the annual pension valuations beginning with the September 30, 2014 valuation. The total pension liability as of
 September 30, 2015, is based on the results of an actuarial valuation date of September 30, 2014, and rolled forward using
 generally accepted actuarial procedures, including the experience study.
- Recognition period for liabilities is the average of the expected remaining service lives of all employees in years:4.7158
- Recognition period for assets in years is 5.0000.
- Full actuarial assumptions are available in the 2015 MPSERS Comprehensive Annual Financial Report.

NOTE K - PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the District recognized total pension expense of \$22,119. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred

Deferred

	outflows of		inflows of	
	re	esources	re	esources
Difference between expected and actual experience	\$	-	\$	992
Changes of assumptions		7,378		_
Net difference between projections and actual earnings on				
pension plan investments		1,529		-
Changes in proportion and differences between employer				
contributions and proportionate share of contributions		18		11,937
District's contributions subsequent to the measurement date		17,410		
Total	\$	26,335	\$	12,929

\$17,410 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
September 30	Amount
2016	\$ (2,366)
2017	\$ (2,366)
2018	\$ (2,766)
2019	\$ 3,494

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

NOTE L - PENSION PLAN FIDUCIARY NET POSITION

Detailed information about the pension plan's fiduciary net position is available in the separately issued Michigan Public School Employees Retirement System 2015 Comprehensive Annual Financial Report, available here: http://michigan.gov/orsschools/0,1607,7-206-36585---,00.html.

NOTE M - PAYABLES TO THE PENSION PLAN

At June 30, 2016 the District did not report any payable to the pension plan at year end.

NOTE N - RECONCILIATION OF GRANT AUDITOR REPORT TO REPORTED FEDERAL REVENUES

The amounts reported as cumulative payments on the Grant Auditor Report prepared by the State of Michigan, reconcile with the federal revenue on the Combined Statements of Revenues, Expenditures, and Changes in Fund Balances as follows:

Total cumulative payments	\$ 28,663
REAP	 17,695
Total Federal Financial Assistance	\$ 46,358

The District expended less than \$750,000 in Federal awards during the fiscal year ended June 30, 2016 and is exempt from Federal Single Audit requirements, thus a schedule of federal financial assistance was not prepared.

NOTE O - RISK MANAGEMENT

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for general liability and employee medical benefit claims and participates in the SEG Self-insurers Workers' Disability Compensation Fund for claims relating to employee injuries. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

NOTE P - SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued.

NOTE Q - UPCOMING ACCOUNTING PRONOUNCEMENTS

In June 2015, Governmental Accounting Standards Board (GASB), issued Statement No, 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, which will be effective for the District's 2018 fiscal year. The Statement will require School Districts who participate in defined benefit other postemployment benefit (OPEB) plans to report a net OPEB liability in the statement of net position. The School District will be required to recognize on the statement of net position their proportionate share of the net OPEB liability related to it's participation in the MPERS plan. There will be revised note disclosures and required supplementary information which will enhance the comparability and consistency of how governments calculate the OPEB liabilities and expense.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Arvon Township School District Skanee, Michigan

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Arvon Township School District as of and for the year then ended June 30, 2016 and the related notes to the financial statements and have issued our report thereon dated October 25, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Arvon Township School District's, internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will be not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

To the Board of Education Arvon Township School District Skanee, Michigan

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Arvon Township School District for the year ended June 30, 2016. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 11, 2016. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Arvon Township School District are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2016. We noted no transactions entered into by Arvon Township School District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements is current judgements.

Management's estimate of the useful lives of fixed assets, used to calculate depreciation, is based on the estimated useful lives of certain classes of assets. We evaluated the key factors and assumptions used to develop the useful lives to determine that they are reasonable in relation to the financial statements taken as a whole.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 25, 2016.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Arvon Township School District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the budgetary comparison schedules which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on RSI.

We were engaged to report on the supplemental financial information, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the use of the Arvon Township School District board and management and is not intended to be and should not be used for anyone other than these specified parties.

We appreciate your business, thank you.
